

# Tasplan & ClickSuper streamline contributions

Handling superannuation contributions and other employee deductions is time-consuming and painstaking work. In any organisation with a large number of employees, it's a major cost factor – and a major compliance risk. Now SuperStream has raised the bar even higher.

ClickSuper is great news for large employers as it substantially reduces administration costs and also reduces the error rate and compliance risk. It also reduces the error rate and compliance risk associated with making superannuation contributions and other employee deductions.

## ClickSuper – the cost-effective solution

ClickSuper is an e-commerce solution that validates and pre-reconciles data. Contributions are allocated to the right account quickly and efficiently, and without the need for costly manual reconciliations or cheque payments. Employers enjoy a streamlined, user-friendly payment solution, and employees' funds are invested quickly and efficiently.

Join a growing number of Australia's large employers who are using ClickSuper to streamline all super contributions and other employee deductions.

**For more information visit [www.clicksuper.com.au](http://www.clicksuper.com.au)**

"ClickSuper offers us three main advantages – it incorporates standardised data fields for entering employee information; the quality of the back-end data about superannuation funds is more current and of better quality."

**Greg McManus, CEO – Talent2**

Your Choice for Super

### One click and it's done

No cheques, no manual processing. Just fast, efficient contribution payments using one solution.

ClickSuper is very user-friendly. Employers simply log onto ClickSuper, upload employee details and schedule payment. Superfund details can either be sourced from a drop down list or validated from the imported data.

### Outstanding value

ClickSuper is compatible with your existing systems and processes, and for as little as \$2.50 per payment cycle, ClickSuper can streamline all your contributions and deduction payments.

Providing full technical support, ClickSuper will work with your existing infrastructure to solve your SuperStream challenge.

### ClickSuper delivers key benefits

- Straight through processing from your payroll system or ERP
- Significant cost and time savings through integrated automation
- Data errors are minimised with real time validation
- Funds are allocated to employees' accounts quickly and accurately
- All your employee deductions are taken care of, not just superannuation

- 1 Employer logs onto ClickSuper
- 2 Schedule contribution and deduction payments
- 3 ClickSuper:
  - Validates data
  - Links electronic payment with electronic data
  - Disburses funds
  - Sends notification to employer
- 4 Fund and employer receive notification
